HEAVENLY VISITOR SEEN AT SOUTH OMAHA

Wanderer Through Space Said to Have Appeared to Parties Who Were Returning Home from Church.

is responsible for is believed to have been the object seen about church time Sunday night. A view of the object, however, appears to have been confined to South Omaha. The "thing" flashed into view about 9:30 o'clock. It appeared to be coming from the southeast, to be coming from the southeast. The appeared to be coming from the southeast. The appeared to be coming from the southeast. The appeared to be consider. It had the appearance of a big engine head-light and floated off toward the west and north and finally disappeared behind some buildings. It was in sight something over half an hour, the people who saw it estimat-ing that it was a few minutes after 10 o'clock It had the appearance of a big engine heading that it was a few minutes after 10 o'clock be merely a matter of form and will transact when it sank out of sight. Among those who no business. saw the strange object was I. J. Copenharve, who is one of the compositors on The Bee and who lives at Twenty-sixth and H streets, South Omaha. Mr. Copenharve does not drink any exhilarating liquids and in addi-tion was coming home from church at the time. He, with several others, saw the ob-ject very distinctly and could not be mis-

taken.
"We thought at first that it was a balloon," sail Mr. Copenharve. "If there is such a thing as an airship, however, I believe now that it was one. There was a bright light about a foot in diameter and some of us who saw it thought that we could distinguish some dark body below the light, but we might have been mistaken in that."

Mr. Copenharve and his friends are not

Mr. Copenharve and his friends are not the only people in South Omaha who saw the stranger. Some railroad men working the north end of the railroad yards near the Burlington switch shanty saw it. It had then altered its course and was sailing to-ward the northeast. The men watched it

until it disappeared.

Sunday night was the second time that the visitor has appeared in South Omaha. The "thing" showed itself a couple of weeks thing" ago. At that time it was very much like Sunday night's visitor, All that could be seen was a big light that burned very steadily. Nothing definite could be distinguished regarding any other part of it. On the occasion of that visitation, the object caused a good deal of speculation, and that has been increased now that it has appeared a second time. Some South Omaha people think that it is a big star, which is predicting the end of the world, or something else. Those who have seen it, however, say that the "thing" s not a star at all. Besides being too large, t appears to be floating not very far from the earth. No one, however, has been for-tunate enough to distinguish more than the

light. During the past few months there have been several reports regarding an individual in the state who is working on an airship. The inventor has been located somewhere near Hastings, but he has succeeded in keeping his identity pretty well concealed. They say that he does not want his airship invention to be stolen by unprincipled individuals.

You need not be afraid of the twinge of rheumatism when you have Salvation Oil. FIVE YEARS ON BOARD A WAR SHIP.

Charles Busch Returns Home After Having Sailed the Seas. Five years ago Charles Busch was 16 years of age and wanted to go into the navy. His father protested, but was unsuccessful. In the face of all remonstrance the boy left his home and went to New York. He had a hard time of it for awhile in the big metropolis, but finally he discovered a way of gaining his ambition. He succeeded in oblining an appointment of ship boy on the signed after that to the Chicago and then the Concord. During the war between Japan and China the ship was in the eastern vaters, and Busch saw something of the battles. After that he was sent to the Oregon, with which he remained until he was

discharged, a short time ago, in San Francisco. He went to Norfolk, Va., to get his discharge papers, and last Saturday returned During his experience young Busch has seen a portion of the world, his cruises hav-ing taken him pretty nearly everywhere. He started out as an apprentice of the third class, worked up through the second and first class, and now, if he enlists again, he will be booked as an able seaman. He in-tends, however, to enter the gunnery school at Washington. After graduation from this

officer. Young Busch is the son of a fighter. Herman Busch was one of the soldiers in the Franco-Prussian war and was in sixteen batties. He came out without a scratch. Afterward he removed to this country and

# MONEY FOR THE DEPOSITORS

Payment Depends on the Agreement to Waive Interest.

Receiver Thomas Prepared to Pay Fifty Per Cent on Unpaid Balances

to Creditors Who Accept

the Proposition.

The depositors in the American Savings bank whose claims are not contested by the stockholders, will soon have their hearts gladdened by a dividend of 50 per cent on the unpaid balance of their claims, provided they accept a proposition from the stockholders to take the par value of their deposits without interest. About 65 per cent of the original claims has been paid.

The stockholders in this bank appeared in

court yesterday by their attorney and submitted a proposition by which they agreed to pay into court at once the sum of \$25,000, in accordance with the understanding reached two weeks ago, but they wished to attach to such payment the conditions which should govern the distribution of this money. They submitted a written proposition providing that a portion of the money should be used to pay a dividend of 50 per cent on balance due upon those claims not in the list against which objection is made by the stockholders. provided that those depositors to whom the dividends paid and to be paid should equal the par value of their claim, without interwhere received with marked attention and hospitality. Discussion by Members of Omaha Ministerial Union. The meeting of the Omaha Ministerial union held at Kountze Memorial Lutheran church yesterday was mainly devoted to the consideration of the prescribed topic for discussion. This was "Lessons from the Life of the Earl of Shaftsbury." Rev. S. B. Me-Cormick, pastor of the First Presbyterian church, read the first paper, which was largely confined to a relation of the main incidents in the life of the great philanthrocago and expects to remain in Omaha for the remainder of the year. He takes ex-ception to some of the statements made at measureless enjoyment, as ical ambitions, to devote his life to the relief of the poor and friendless. For over sixty years he had worked for the relief of the oppressed classes and through him had been accomplished nearly all the industrial legislation that had bettered the condition of the working classes of England. The speaker briefly reviewed the work of Lord Shafts-bury in behalf of the factory operatives, the costermongers and various other types of the working classes.
